## CHAIR REPORT

The first Surveyors Board SA meeting following the Annual General Meeting last September saw Joe D'Aloia step down as Chair of the Board. Having performed this role for the last five years, Joe has made a significant contribution to the profession in both time and energy which has been sincerely appreciated. After serving a long apprenticeship, I agreed to accept the nomination for Chair and subsequently the position, confident in the support and knowledge I would receive from Joe and the rest of the Board.

2022 – 23 has been a very busy year with a number of changes to the functions of the Board, and also changes occurring in the surveying profession. The biggest challenge has been the establishment of a new tertiary degree for the education of future Professional Surveyors, enthusiastically supported by Flinders University.

### **Announcing Flinders University Collaboration Agreement with ISASA**

Following a year of negotiations, curriculum development and funding challenges, in June the Surveyor's Board was able to announce the signing of the Flinders University Collaboration Agreement. A new four-year double-degree commencing with a common first year to complete a Bachelor of Geospatial Information Systems (BGIS) / Bachelor of Surveying (BSU). The BGIS-BSU will be available from 2024, meaning first year BGIS students in 2023 can transfer to the second year of the double degree next year.

This would not have happened without the support of Minister Champion, Surveyor-General Bradley Slape, Professor Giselle Rampersad, Associate Professor David Bruce and former Chair Joe D'Aloia, along with the Board members and the industry as a whole, a truly collaborative effort.

The final step of this process still requires an official accreditation of the degree by CRSBANZ so the qualification is recognized across Australia and New Zealand.

### **Amendments to the Survey Plan Levy**

To deliver the new degree, funding requirements for Flinders University necessitated a review to the Survey Plan Levy payments collected by the LSG. Following a Call to Action to all Licensed & Registered Surveyors, Surveyor-General Bradley Slape was able to demonstrate to the Minister how the surveying profession were behind and supported an increase in this regulated Survey Plan Levy to fund this initiative over and above standard yearly increases.

Licensed and Registered Surveyors responded by providing 98 pledges showing overwhelming support of the fund increase to support the new Degree. On behalf of the Board, I take this opportunity to sincerely thank companies and individuals for their responses. This clear message to the Government showed how invested the whole industry is in supporting the future generation of qualified, professional surveyors.

### **Built Environment Education Liaison Group (BEELG) – Minister Champion**

A new initiative this year, to address the skills shortage in the built environment professional sector, Minister Champion established BEELG, a working group with members from across multiple professions. Representations from the Survey industry were fundamental in the Minister recognising there was a need to establish a vehicle to address this important issue across the whole Built Environment sector. With representation from the Surveyor-General, the Surveyors Board, CSSA and GCA, this is an excellent vehicle to engage with all sectors across the Built Environment. This group is working together to review skills shortages in South Australia, recognize the issues, and manage ways to fill these gaps.

### **Ministers Liaison Group**

Through the educational issues that have arisen this year and better understanding of current and future skills shortages by the government, it is believed the industry has achieved improved recognition of the role Surveyors contribute to the Built Environment. This has resulted in the Surveyors Board being provided a position to represent the industry on the Ministers Liaison Group. This position provides a direct link to government on matters relating to planning and the future development of the state. A tangible benefit of this liaison in the last 12 months is the Surveyors Board were able to seek input from CSSA & GCA and provide a response to the Expert Panel relating to the Planning Review.

### **SurveyingSA Committee**

To encourage growth of the industry, and in support of the new Flinders University degree along with other training institutions, the Surveying SA Committee has been reinstated by the Board. This committee is responsible for recruitment to the industry as a whole and activity encourages participation in career events throughout South Australian High Schools and Private Colleges. The current committee consists of Kane Ryan (CSSA), Graham Walker (GCA), Zygyg Kulesza (Department for Education), two Board appointed members and a brand and marketing professional.

The committee has redesigned the Brand and Logo for Surveying SA, developed marketing collateral and merchandise suitable to support the recruitment process, upgraded the SurveyingSA website and added email links

that go direct to Flinders, TAFE, the Surveyors Board and the Registrar's Office. In the past 4 months committee members and volunteers have represented the profession at 9 School Focused Career Events. A big thank you to Bradley Slape and the staff at the Surveyor-General's Office for supporting their staff in managing these expos.

2024 will be an even busier year with recruitment activities commencing in March and continuing through to September. The intention is to increase awareness, educate and inform students early when they are looking to make decisions about career choices. The Committee will develop some training sessions for members who can volunteer to work at these events and a targeted Work Experience program is also being investigated for 2024.

### **Amendment to the Rules**

Surveying & Spatial Sciences Institute announced in March the amalgamation of their industry body with SIBA/GITA to create a new national body. The Geospatial Council of Australia was introduced at the Locate 2023 conference in Adelaide in May 2023.

Due to this restructure, our state-based membership organisations, CSSA and SSSI-SA met with the Surveyors Board recommending the member representative seat on the Board (Ex Officio SSSI-SA) be dissolved. Following letters of support for this initiative, the Surveyors Board has proposed amendments to the Rules to be presented to the members at the 2022-23 AGM 20 September 2023. The amendments propose a vote on the removal of the Ex Officio and for the position to be replaced with another member taking member positions to four. The Chair, Treasurer, Academic Member, Surveyor-General and elected person "who brings diversity to the Board" will remain in place.

### **Surveyors Board Mentors & Examiners**

The core business of the Surveyors Board members has continued during the year, providing a platform to enable Registered Surveying Graduates (RSGs) to become Licensed or Registered Surveyors and managing continued registration of practicing Surveyors. There are currently 31 RSG's in training agreements across the profession, and 7 Graduates undertaking their final Professional Assessment Project to become Licensed Surveyors.

During the renewal period for 2022/23 two notifications were received from senior licensed surveyors of their decision to retire. Also during this year, the court suspended one licence for breaches of the Survey Act, two RSGs progressed to become Licensed Surveyors and one license was issued under the new Mutual Recognition Scheme. The net result of these movements resulted in the industry maintaining 110 Licensed Surveyors and 5 Registered Surveyors in the state.

### **Survey Audit Subcommittee**

Another important function of the Board is to ensure the standard of Licensed Surveyors are maintained and this is done through the review of Surveys through the Survey Audit Subcommittee. This important committee ensures the high standard of Cadastral Surveys is maintained. Simon Crowe was appointed to the Survey Audit sub-committee this year, joining Mark Pittman and Peter Brinkley. It should be noted all surveys identified as Low or Very Low compliance are provided to this committee and then feedback is provided to the surveyors through the Surveyor-General's Office. Surveyors are encouraged to consult with the Surveyor-General's Office for assistance.

### **Conclusion**

It has been a year of many changes brought about by necessity with the positive result of the whole industry pulling together to achieve some significant outcomes. A successful future will require every individual within the industry to take a role in promoting the industry and its high values, by continuing to actively work together with the government, the educational sector and the built environment industry as a whole.

I thank the individual Board Members for their ongoing support and dedication throughout the year. Many hours go into supporting Registered Surveying Graduates and their Supervisors, along with the other roles these committed members undertake. Sincere thanks to the newly re-designed Surveying SA Committee and the ongoing support the profession received from Consulting Surveyors SA, SSSI now GCA and the Department for Education. A warm thank you to our long serving Registrar Sharon for her commitment to the industry, Sharon will be finishing up at the end of the year and her positive and friendly approach will be missed.

Finally, I would like to acknowledge the personal support and mentorship Joe D'Aloia has provided in my initial year, and thank him for his leadership and service to the Surveyors Board of South Australia over the last 13 years.

**Chair - Michael Liebelt**  
Surveyors Board SA

## ISASA FUNCTIONS UNDER THE SURVEY ACT 1992

The Surveyors Board of South Australia operates as the Management Committee of the Institution of Surveyors Australia, South Australia Division Incorporated (ISASA) (the Division).

Responsibilities of the **Survey Act 1992** accepted by the Surveyors Board include the following:

### Division 3—Institution of Surveyors

#### 10 - Functions of Institution under Surveyors Act

- (1) The Institution of Surveyors is responsible for—
- (a) monitoring the operation of this Act and the law relating to surveying; and
  - (b) exercising a general oversight over surveying, and the keeping of survey records, in this State; and
  - (c) monitoring the operation of survey instructions in force under this Act; and
  - (d) exercising a general oversight over the professional practice of surveyors; and
  - (e) monitoring the standards of courses of instruction and training available to—
    - (i) those seeking licensing or registration as surveyors; and
    - (ii) surveyors seeking to maintain or improve their skills in surveying practice; and
  - (f) consulting with educational authorities in relation to the establishment, maintenance or improvement of courses referred to in paragraph (e); and
  - (g) making recommendations to the Minister with respect to the matters referred to in the preceding paragraphs; and
  - (h) providing financial and other assistance for the conduct by a university of, or participation of a student in, a course of instruction and training that provides qualifications for licensing or registration as a surveyor, and otherwise promoting surveying as a career, as agreed with the Minister; and
  - (i) carrying out such other functions as are assigned to it by this Act.
- (2) The Institution of Surveyors must carry out its functions under this Act with a view to promoting and maintaining high standards of competence and conduct in surveying practice.

The Division is the premier body representing licensed and registered surveyors in South Australia since the first meeting of the South Australian Institute in 1882. The Division has enjoyed close co-operation with the former Surveyors Boards (the first being established by an Act of Parliament in 1887).

**Additional functions as detailed in the Survey Act 1992 include:**

- Professional development, conduct and discipline of surveyors, investigating and resolving complaints and monitoring the special provisions relating to Surveying Service Providers.
- Adherence to standards of survey practice, including advice on referred rectification to surveys.

The Division seeks legal advice from Kelliedy Jones Lawyers when clarification and opinions are necessary. By special appointment, the eighth Board member has a legal background and is able to provide as required.

## ISASA BOARD MEMBERSHIP

The Board consisted of eight members and comprised the following office bearers:

- Chairman
- Treasurer
- Two elected Licensed Surveyors
- An Academic involved with the teaching of surveying at an institution of tertiary education, appointed by the Board
- The person elected to the regional committee of the Surveying and Spatial Sciences Institute (SSSI) by members of the Land Surveying Commission (LSC), or the nominee of that person (ex-officio)
- The Surveyor-General (ex-officio)
- An eighth person of professional standing and not a member, nominated by the Board.

The tenure for Board membership is 2 years, with nominations for half of the electable Board members called every 12 months following the end of the financial year.

Procedures for Board elections can be found on the Surveyors Board SA Website [www.surveyorsboardsa.org.au/resources/publicinfo/settledrules](http://www.surveyorsboardsa.org.au/resources/publicinfo/settledrules)

The Board meetings are held on the 3rd Thursday of every month at 5.30pm in the Division Office: Level 7 West 50 Grenfell Street, Adelaide.

**Elected ISASA Board members are volunteers who give their time, surveying knowledge, experience, and support to the profession in South Australia. A major function of the Board is the supervision of Registered Surveying Graduates (RSG) from their initial training agreement to their final Professional Assessment Project and full Licence.**

**The Board members ask every member to consider how you can support the profession by becoming a Board Member at the next election. If you would like to discuss being a member, please contact the Registrar on (08) 8212 0343.**

### The Surveyors Board of SA Members

(Standing from left to right): Scott Allen - Academic Member, Giuseppe (Joe) D'Aloia - SSSI Ex Officio, Simon Crowe - Survey Audit Committee, Mark Pittman - Survey Audit Committee, Bradley Slape - Surveyor-General of SA, Mark Williams - Treasurer

(Seated from left to right): Sharon Medlow Smith - Registrar, Michael Liebelt - Chairman, Victoria Shute - Legal Advisor

## STATISTICS

The following list contains the statistics for each function of the Division under the Survey Act 1992, for the year ended 30 June 2023.

A copy of the Register of Surveyors as at 1 July 2023 and printed in the Government Gazette on Thursday 17th August 2023 is on page 31.

- 5 Renewal of Registrations
- 0 Non-Renewal of Registrations
- 0 New Registrations

- 110 Licence Renewals
- 2 Retired Non-Renewals
- 2 Graduated Surveyors to Licence
- 0 Emeritus Surveyor
- 3 Non-Practising Surveyors
- 1 Mutual Recognition Surveyors Licensed

*Investigations under Section 36 (1) of the Act:*

- 0 Ongoing Investigations
- 1 Concluded Investigations
- 0 New Investigations

## EDUCATION REPORT

With the decision by UniSA in May 2022 to close the Bachelor of Engineering (Honours) (Surveying) degree program to new admissions, the Board's education focus has shifted to:

- Ensuring that those students already enrolled in the UniSA program can successfully complete their surveying studies; and
- Engaging with Flinders University on the creation of a new surveying degree that will allow graduates of the program to progress to cadastral licensing in South Australia.

There are eleven students remaining across the second, third and fourth years of the UniSA program, with the last of these expected to complete their studies at the end of 2025.

On 31 May 2023, a Collaboration Agreement was executed between the Institution of Surveyors Australia, South Australia Division Inc. (ISASA) and Flinders University for the establishment of a new surveying program.

The new four-year program to formally commence in 2024, will be a double degree comprising of a Bachelor of Geospatial Information Systems/ Bachelor of Surveying.

The Board is confident that this new program will provide an ongoing supply of quality graduates to ultimately become the licensed surveyors required for the effective support of the State's cadastral system and infrastructure development.

## Start your amazing journey to become a Surveyor.

If you are interested in a career that can take you around the world, then Surveying is for you.

Flinders University is the only South Australian University offering education in Surveying, with a four-year double degree combining a Bachelor of Geospatial Information Systems and Bachelor of Surveying. It will enable graduates to qualify as registered surveyors in South Australia.

This degree is recognised by the Surveyors Board of South Australia, meaning that you can become a licensed surveyor. Combined with the GIS degree recognition with the Geospatial Council of Australia, you will have a huge amount of career opportunities waiting for you.

# SURVEYING SA

## Knowledge and Innovation

With the introduction of the new Surveying Degree starting at Flinders University in 2024, we realised this created a great opportunity to relaunch Surveying SA as a conduit of information for upcoming Surveying graduates and anyone interested in pursuing surveying as a career.

The first step was to rebrand Surveying SA giving us a foundation to then develop a unique and vibrant awareness campaign. The main purpose of which was to direct potential surveying students to enrol in the degree course at Flinders University as well as offer extensive information about the "career that knows no boundaries".

The campaign theme is "No Limits", identifying the breadth and scope of a Surveying career and all the different types of choices available.

To help deliver this message and introduce the new branding, a website was designed to showcase all of the relevant information and offer potential surveyors and students the opportunity to connect with industry stakeholders and Board.

Along with the website an information kit, exhibition material, social media and QR codes were produced directing traffic to the website. A series of school career expos have been attended by members of the Surveyor-General's Office and industry giving students the opportunity to explore surveying as a career option.

## School Career Expos

The Department of Education South Australia launched an inaugural Career and Pathway Expo in August 2023 to create the awareness of Surveying as a career of choice. Members of the Surveyor-General's office and industry representatives, attended multiple school career expos, giving students the opportunity to see, feel and learn about surveying. These expos were both in the city and on regional campuses.

## CONCLUSION

**To conclude this 2022-23 Annual Report, we look back at the achievements of the past year. We have established a new Surveying Degree and reinvented the Surveying SA Committee and Brand for the recruitment of young potential Surveyors.**

We have also maintained the same number of Licensed and Registered Surveyors for 2023-24 and our Registered Surveying Graduates have increased on last year.

New relationships have been established with Government and Industry with the BEELG and MLG working groups hosted by Hon Minister Nick Champion. Greater exposure to the community will result from the activities of the Surveying SA Committee, and the Surveyors Board interaction with CSSA and GCA providing quality events supporting CPD Points. A continued association with the Department for Education will ensure quality Career events will be conducted.

We have 9 Registered Surveying Graduates who are now actively engaged in their Professional Assessment Projects. As they complete the final stages of their training to become licensed, our total number of Licensed Surveyors in South Australia will increase in numbers as a result.

A copy of the Annual Report will be posted to the Surveyors Board SA website along with the latest edition of the eNews. The website is updated regularly along with the Surveying SA website. I encourage all members to check in on these two dedicated websites for our profession and encourage members to look at the

websites regularly. If you have articles, news relative to the profession or information you feel should be shared please contact the Registrar to facilitate your information being shared.

I thank the Board Members for their ongoing support to Graduates and the Profession. I acknowledge the enormous energy given freely by the volunteers who sit on the Surveying SA Committee. We welcome the interaction we have with the Surveyor-General's Office, and our common goal to protect the integrity of the Cadastre. I commend this report to you.

**Chair**  
**Michael Liebelt**  
Surveyors Board SA

# FINANCIALS

The Institution of Surveyors Australia  
South Australia Division Incorporated.

Financial Report for the year ended June 30 2023.

Liability limited by a scheme approved under Professional Standards Legislation

## COMMITTEE'S REPORT

### BY MEMBERS OF THE COMMITTEE

The committee members submit the financial statements of The Institution of Surveyors Australia South Australia Division Incorporated for the financial year ended 30 June 2023.

### 1. GENERAL INFORMATION

#### Committee Members

The names of the committee members throughout the year and at the date of this report are:

- Mr M J Liebelt - Chair (Appointed as Chair on 22/09/2022)
- Mr S L Allen - Academic Member
- Mr B J Slape - Surveyor-General
- Mr G D'Aloia - Member (ex officio SSSI)
- Mr M R Pittman - Member
- Ms V Shute - Legal Adviser
- Mr M A P Williams - Member (Treasurer)
- Mr S J Crowe - Member

In Accordance with Section 35(5) of the Associations Incorporation Act 1985, the Committee hereby states that during the financial year ended 30 June 2023;

- (a) No officer of the association/firm of which an officer is a member/body corporate in which an officer has a substantial financial interest has received or become entitled to receive a benefit as a result of a contract between the officer, firm or corporate body and the association;
- (b) No officer of the association has received directly or indirectly from the association any payment or other pecuniary value other than a benefit included in the aggregate amount of honoraria paid during the year. This remuneration for the year was \$26,175 (2022: \$35,385).

#### Principal Activities

The principal activities of the association during the financial year were:

- The promotion of the science and practice of surveying, the encouragement of the study of surveying, and to safeguard the institution.
- Following promulgation of the Survey Act 1992, responsibilities of the Surveyors Board of South Australia were transferred to the Institution. The Surveyors Board regulates the registration and renewal of Surveyor's licenses or registration in South Australia.

### 2. OPERATING RESULTS AND REVIEW OF OPERATIONS FOR THE YEAR

#### Operating Results

The (loss)/profit of the Association for the financial year after providing for income tax amounted to (105,837) (2022:\$54,482)

Signed in accordance with a resolution of the Members of the Committee.

Chairman

Member (Treasurer)

Dated 17th day of August 2023

## BENTLEYS SA AUDIT PARTNERSHIP

LEVEL 5, 63 PIRIE STREET, ADELAIDE, SOUTH AUSTRALIA 5006

### Independent Auditor's Report to the Hon Nick Champion MP - Minister for Planning and Members of the Institution of Surveyors Australia South Australia Division Inc.

#### Opinion

We have audited the accompanying financial report, being a special purpose financial report, of The Institution of Surveyors Australia South Australia Division Inc., which comprises the statement of financial position as at 30 June 2023, the statement of comprehensive income, and statement of changes in equity for the year then ended, and notes to the financial statements including a summary of significant accounting policies and the Statement by Members of the Committee.

In our opinion, the financial report presents fairly, in all material respects, the financial position of The Institution of Surveyors Australia South Australia Division Inc. as of 30 June 2023, and of its financial performance for the year then ended in accordance with the accounting policies described in Note 2 to the financial statements and the Associations Incorporation Act (SA).

#### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the entity in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for distribution to the Minister and to members for the purpose of fulfilling the Board's financial reporting obligations under the Survey Act SA 1992 and Associations Incorporation Act (SA) 1985. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

#### Responsibilities of the Members and Management for the Financial Report

The members of the Association and management are responsible for the preparation and fair presentation of the financial report in accordance with the financial reporting requirements of the applicable legislation and for such internal control as management determines is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error

In preparing the financial report, the members of the Association and management are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Members of the Board are responsible for overseeing the entity's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <http://www.auasb.gov.au/Home.aspx>. This description forms part of our auditor's report.

#### Bentleys SA Audit Partnership

## NOTES TO THE FINANCIAL STATEMENTS

To and forming part of the Financial Statement for the Financial Year 30th June 2023.

The financial statements cover Surveyors Board SA as an individual entity. Surveyors Board SA is a not-for-profit Association incorporated in South Australia under the Associations Incorporation Act (SA) 1985 ('the Act') and the Surveyors Act 1992.

The functional and presentation currency of Surveyors Board SA is Australian dollars.

Comparatives are consistent with prior years, unless otherwise stated.

### NOTE 1 – BASIS OF PREPARATION

In the opinion of the Committee of Management, the Association is not a reporting entity since there are unlikely to exist users of the financial statements who are not able to command the preparation of reports tailored so as to satisfy specifically all of their information needs. These special purpose financial statements have been prepared to meet the reporting requirements of the Act.

The financial statements have been prepared in accordance with the recognition and measurement requirements of the Australian Accounting Standards and Accounting Interpretations, and the disclosure requirements of AASB 101 Presentation of Financial Statements, AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors and AASB 1054 Australian Additional Disclosures.

The financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Significant accounting policies adopted in the preparation of these financial statements are presented below and are consistent with prior reporting periods unless otherwise stated.

### Agency Transactions and Balances

The board acts as secretary and administrator for the Council of the Reciprocating Surveyors Boards of Australia and New Zealand (CRSBANZ). As the board acts solely in a custodial role, the transactions and balances of CRSBANZ are not recognised in the Board's financial statements. The board has no right to dispense CRSBANZ funds to accomplish the Board's objectives.

The financial statements and material accounting policies all comply with the recognition and measurement requirements in Australian Accounting Standards.

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Revenue and Other Income

##### Revenue from contracts with customers

Accounting policies are selected and applied in a manner which ensures that the resultant financial information satisfies the concepts of relevance and reliability, thereby ensuring the substance of the underlying transaction and other events is reported.

In the application of Australian Accounting Standards, management is required to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and other various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision effects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

##### Specific Revenue Streams

The revenue recognition policies for the principal revenue streams of the Association are:

Revenue is recognised when the Board is legally entitled to the income and the amount can be quantified with reasonable accuracy. Revenues are recognised net of amounts of goods and services tax (GST) payable to the Australian Taxation Office.

##### Membership Fees and Subscriptions - Institution

The institution's membership subscription year runs from 1 July to 30 June. Membership fees and subscription receipts, which are attributed to the current period, are recognised as revenue. Fees and subscriptions relating to periods beyond the current financial period are shown in the statement of financial position as income received in advance.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

To and forming part of the Financial Statement for the Financial Year 30th June 2023.

### Licence Fees

Revenue from licence fees is recognised as received.

### Plan Levy and Other Income

Plan Levy income of the association is accounted for on a receivable basis from the South Australian Land Titles Office. Income from renewals and registrations are accounted for as amounts are received, and then allocated to the registration year applicable. Renewals and registrations relating to periods beyond the current financial period are shown in statement of financial position as income received in advance. Interest income is recognised when received.

### Investment Income

Investment income comprises interest and is recognised as it accrues, considering the effective yield on the financial asset.

### Asset Sales

The gain or loss disposal of all non-current assets and available-for-sale financial investments is determined as the difference between the carrying amount of the asset at the time of the disposal and the net proceeds on disposal.

### Other Income

Other income is recognised on an accruals basis when the Association is entitled to it.

### (b) Expenditure

All expenditure is accounted for on an accrual basis and has been directly attributed to a particular category.

### (c) Cash and cash equivalents

Cash and cash equivalents comprises of cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

### (d) Receivables

Trade Receivables, which comprise amounts due from provision of services or the imposition of fines as a result of disciplinary action are recognised and carried at original invoice amount less an allowance for any uncollectable amounts. Normal terms of settlement are fourteen (14) days. The notional amount of the receivable is deemed to reflect fair value.

An allowance for doubtful debts is made when there is objective evidence that the Board will not be able to collect the debts. Bad debts are written off when identified.

### (e) Fixed Assets

Office equipment is carried at cost less where applicable, any accumulated depreciation. Museum and Library assets are carried at valuation. Individual items are classified as plant and equipment when their cost exceeds \$1,000. The depreciable amount of all fixed assets is depreciated on a diminishing value basis over their useful lives to the association commencing from the time the asset is held ready for use. The depreciation rates used for each class of depreciable asset are:

**Class of fixed Asset - Plant and Equipment**

**Depreciation Rate - 13% to 50%**

Each asset's residual value and useful life is reviewed, and adjusted if appropriate, at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains or losses are included in the statement of profit or loss and other comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to accumulated surplus.

Items of property, plant and equipment acquired for significantly less than fair value have been recorded at the acquisition date fair value.

### Depreciation

Property, plant and equipment, excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the Association, commencing when the asset is ready for use.

### (f) Financial Assets

#### Held to Maturity Investment

Held to maturity investments are assets with fixed or determinable payments and fixed maturities that the Board has the positive intention and ability to hold to maturity. After initial recognition, they are measured at amortised cost using the effective interest method. Gains and losses when the asset is impaired or de-recognised are recognised in the Statement of Comprehensive Income.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

To and forming part of the Financial Statement for the Financial Year 30th June 2023.

### (g) Trade Creditors and Other Payables

Trade creditors and other payables represent liabilities for goods and services provided to the Board prior to the end of the financial year that are unpaid. These amounts are usually settled in thirty (30) days. The notional amount of the creditors and payables is deemed to reflect fair value.

### (h) Employee Benefits

Employee benefits comprise wages and salaries, annual, long service and accumulating but non-vesting sick leave and contributions to superannuation plans.

Liabilities for wages and salaries expected to be settled within 12 months of Statement of Financial Report date are recognised in other payables in respect of employees' services up to the reporting date. Liabilities for annual leave in respect of employee's services up to the reporting date which are expected to be settled within 12 months of the statement of financial position date are recognised in the provision for annual leave. Both liabilities are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for accumulating but non-vesting sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

The liability for long service leave is recognised in the provision for employee benefits and measured as the nominal value of payments due to employees as at the reporting date.

The board pays contributions to staff nominated superannuation funds. Contributions are recognised in the income statement when they are due. The board has no obligation to pay further contributions to these plans if the plans do not hold sufficient assets to pay all employee benefits relating to employee service in current and prior periods.

### (i) Income tax

The Institution of Surveyors of Australia (South Australia Division) Inc obtained non-taxable tax status in the financial year 2018. The institution obtained refunds for the prior financial years: 2014, 2015, 2016 and 2017. The prior year's Retained Surplus was increased to reflect the return of taxes paid.

The board is exempt from income tax in Australia. Accordingly, there is no accounting for income tax or application of tax effect accounting.

### (j) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST.

### (k) Leases

#### Operating Lease

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset. Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

### (l) The Surveyors Board of South Australia

Income and Expenses Allocation Policy

The administration of The Surveyors Board of South Australia is the responsibility of the Institution.

The association receives funds in relation to its responsibilities including plan levy and registration renewals etc.

### (m) Loss in 2023 Financial Year

The loss in the 2023 financial year was due to the following reasons:

- Education funding paid to University of South Australia, which was terminated during 2023 financial year.
- Investigation fees paid for Henning's Breaches of Surveyors Act.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

The Surveyors Board of South Australia.

Notes to the Financial Statement for the Year Ended 30th June 2023.

NOTE 3	CASH AND CASH EQUIVALENTS	2023 (\$)	2022 (\$)
	Cash at bank and in hand	77,692	169,393
	Short-Term Deposits	347,797	347,799
		<b>425,489</b>	<b>517,192</b>
NOTE 4	TRADE AND OTHER RECEIVABLES		
	CURRENT		
	Trade Receivables	70,080	6,649
	GST receivable	-	372
	Security Bond	5,315	5,315
	Other Receivables	<b>44,412</b>	<b>30,193</b>
	<b>Total current trade and other receivables</b>	<b>42,529</b>	<b>42,529</b>
	The carrying value of trade receivables is considered a reasonable approximation of fair value due to the short-term nature of the balances.		
	The maximum exposure to credit risk at the reporting date is the fair value of each class of receivable in the financial statements.		
NOTE 5	PROPERTY	2023 (\$)	2022 (\$)
	Buildings		
	At fair value	22,250	22,250
	<b>Total buildings</b>	<b>22,250</b>	<b>22,250</b>
	PLANT AND EQUIPMENT		
	Paintings		
	Paintings at cost	7,405	7,405
	Less: Accumulated Depreciation	(4,536)	(4,536)
	<b>Total paintings</b>	<b>2,869</b>	<b>2,869</b>
	<b>Total Property, Plant and Equipment</b>	<b>25,119</b>	<b>25,119</b>

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### The Surveyors Board of South Australia. Notes to the Financial Statement for the Year Ended 30th June 2023.

	2023 (\$)	2022 (\$)
<b>NOTE 6</b>		
<b>TRADE AND OTHER PAYABLES</b>		
<b>CURRENT</b>		
Trade Payables	4,591	1,726
GST Payable	852	-

### **NOTE 8** STATUTORY INFORMATION

The registered office and principal place of business of the association is;

Level 7, West Wing  
50 Grenfell Street, Adelaide SA 5000

## STATEMENT BY MEMBERS OF THE COMMITTEE

The committee has determined that the association is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 2 to the financial statements.

### In the opinion of the committee the financial report as set out on pages 15 to 24:

- (a) Presents fairly the results of the operations of The Surveyors Board SA as at 30 June 2023 and the state of its affairs for the year ended on that date.
- (b) At the date of this statement, there are reasonable grounds to believe that The Surveyors Board SA will be able to pay its debts as and when they fall due.

This statement is made in accordance with the resolution of the members of the committee and is signed on behalf of committee by:

**Chairman**

Dated 17th day of August 2023

**Treasurer**

## DISCLAIMER

### Auditor's Disclaimer over Detailed P&L of the Institution of Surveyors Australia South Australia Division Inc

The additional financial data presented in the detailed Profit & Loss Statement is in accordance with the books and records of the entity which has been subjected to the auditing procedures applied in our audit for the year ended 30 June 2023.

Our audit did not cover all details of the financial data. Accordingly, we do not express an opinion on the accuracy of the financial data.

Neither the firm nor any member or employee of the firm undertakes responsibility in any way whatsoever to any person, other than the Institution of Surveyors Australia South Australia Division Inc, in respect of such data, including any errors or omissions therein, however caused.

**David Francis**

## STANDARDS

### SURVEYORS BOARD SA 2022-23

**The monitoring, maintenance and improvement of standards within our profession ensure the integrity of the State's Cadastre is protected to meet the expectations of the community and landowners in general.**

The oversight of the Board relies on reporting mechanisms that are in place to remain informed as to the competence and conduct of the profession. The Surveyor-General's Audit Program is a primary source of reporting available to the Board through various methods of investigation conducted on certified plans lodged with Land Services SA.

The Audit Sub-Committee, appointed by the Surveyors Board SA, meet monthly with the Principal Cadastral Surveyor under the direction of the Surveyor General. The committee reviews and reports to the Board on the standard and compliance of the certified surveys investigated under the Audit program.

Certified surveys are reviewed when, in the opinion of the Surveyor-General, they are found to compromise the integrity of the Cadastre. The review by the Audit Sub-committee seeks to analyse the non-conformances of the survey to determine how improvements can be made both on an individual basis as well as across the profession.

Desktop investigations by the Surveyor-General's Office form an integral part of the evaluation process. A high percentage of plans lodged with Land Services SA are now being analysed by Audit surveyors to identify that regulatory standards and high levels of professional conduct have been maintained. This provides a higher degree of certainty in the overall standards of the profession and in identifying where deficiencies may exist.

Field investigation audits conducted under the Standard and Random programs continue to compliment and reinforce the outcomes of the desktop investigations. Surveyors are reminded that they have a responsibility to update their knowledge on the regulatory expectations by reviewing publications such as the Survey Regulations 2020, Notices of the Surveyor-General and the Cadastral Survey Guidelines.

Identifying professional deficiencies will assist in promoting higher standards of competence through targeted education and training. The Board will continue to monitor these programs and evaluate the success of the outcomes.
